

A 6-month self-empowerment program  
with Soul Purpose Guide,  
Liza F. Camba (Sat-Akal)

Take Reign in the New Year!  
JAN 2019 - JUNE 2019

# Reign!

Women's Creativity + Leadership

# What is *Reign!* about?

**Reign!** is an invitation to step into your highest power and to create your life from that place. Reign-the-6-month-program is a unique, transformational women's empowerment program that supports each participant to realize her full potential in all aspects of her life, guided specifically by her innate wisdom, creativity, and leadership.

Each participant arrives to the program with specific goals that she wants to pursue, whether it's a soul project she is committed to creating or completing, a vision she is in service to, or a walk in life that she is dedicated to seeing through.

Participants will be supported with one-on-one coaching as well as with monthly in-person group sessions.

The intention of individualized coaching is to support each person with anything she wants to work on through the use of traditional coaching practices and if desired, a blend of other modern mindset enhancing strategies.

As a group, we'll work with monthly themes that will help bring out greater ease and authenticity on the 6-month journey and beyond.
